

UI (HTML, CSS, JS) Assignment

Problem 1:

- Create an HTML page to enter the details of a voter with the field below:

Voter Form

Name

Age

Result not eligible

- Use JavaScript to check whether the person is eligible for voting or not.
- Display the message on the page. If not eligible display it in red colour.

Problem 2:

- Create a form that takes the input for a product with details as below:

Enter Product Details

Product Id :

Product Name :

Price :

Quantity :

2. Clicking the button “**Calc total cost**” should display below the product with the **total cost of the product** (price * Quantity) in red and bold.

Instructions:

1. Once done with the coding, create a new repository in GitLab and push your code to it.
2. Add your mentor to the repository
3. Share the repo URL with the mentor through Slack
